### MEMBER ASSOCIATED PRESS.

All advertisements to insure insertion in the same day's issue of The Record should be in the printers' hands before eleven o'clock in the morning. Orders for taking out any standing ad. should also be in the office by eleven o'clock to prevent its being run that day.

Governor Hagerman's veto power may prove a pretty good club after all.

The Pecos Valley Democratic Triumvirate, Cameron, Mullins and Hudsphre, will not be lost in the shuffle.

Mr. Bursum evidently has read the handwriting on the wall, and decided not to butt—until he sees a weaker spot in the wall.

Republicans as well as Democrats in the Pecos Valley are opposed to county division. It is not a party question, but a question of good business sense and economy.

Hon. J. O. Cameron, of Carlsbad seems to have solved the county division problem by the proposition to postpone its consideration until other business of real importance is finished.

Now that Col. Catron has withdrawn his contest "in the interest of harmony," there is another Colonel who has a fine opening to increase the harmony by resigning a few of his offices.

The Pecos Valley Democrats in the legislature will prove leaders of the reform movement. They have the ability, and there is a growing suspicion at Santa Fe that their influence with the Governor is as great as the influence of any Republican members of equal ability.

Purely on its merits as a general proposition it is right that district attorneys should be elected by the people—but the purpose of the legislature in taking the appointive power away from the Governor at the present time is to protect the old gang of grafters.

We note with pleasure that the Santa Fe New Mexican has again come out against gambling. A year or more ago, when this issue was burning one in Roswell, the New Mexican took it up and gave us its support, but later on became as silent as the tomb.

The senate has "compromised" in the Brownsville matter by agreeing not to question the President's right in discharging the negro soldiers. This arrangement is satisfactory to everyone excepting Senator Foraker, whom it leaves suspended in mid-air.—Kansas City Times.

The Las Vegas Optic thinks that had the public printing been done in some office other than that of the Santa Fe New Mexican, it would not have occurred to Governor Hagerman that there was any graft in it. Possibly that is true, for any other printing plant in the Territory would be willing to do the work at half the price.

Hagerman, Penasco, Lake Arthur and the Plains, the precincts directly interested, are practically unanimous in opposition to going into any new county. Why shouldn't we help these people when they want to stay with us? Every citizen of Roswell should step into the fight and oppose county division.

Col. Frost, of the New Mexican, insists that the Governor's message "never touched him"—that he has advocated every valuable recommendation in it for years—and that the "errors" are the results of misinformation, on account of the Governor having been too busy to investigate. In other words, the Colonel insinuates that the message is second-hand, stolen partly from the files of the New Mexican, and partly dictated by base and malicious persons unknown.

The legislature is overwhelmingly Republican, and we must recognize the fact that whatever good legislation is accomplished will come to us mainly through the Republican party and the influence of Governor Hagerman. But by lining up on desirable measures with those Republicans who stand for a clean business administration of Territorial affairs, the Democratic members may win many victories, even if they do not get the credit immediately. Good government is what the people want—not merely partisan monkeydoodle business.

Hon. Chas. A. Spiess, in his address of acceptance as President of the Territorial Council strongly emphasized two points, the prohibition of licensed gambling, and help for

## Purity Skill

In compounding your prescriptions we use the purest of drugs and at all times exercise the utmost care in complying with the doctor's instructions. He always feels safe when we do your work.

## Payton Drug, Book & Stationery Co.

the public schools. The Record is glad indeed to see Mr. Spiess take this position, and the people are with him. The two ideas are somewhat related. To prohibit gambling helps the public school more than any one thing, for it is granted and beyond dispute that it is a burning shame upon New Mexico that her public schools are partly maintained by gambling money. But outside of the moral side of the question, to prohibit gambling has proven a success from a business standpoint wherever tried. How can any non-producing element be a benefit to a community?

The New Mexican now claims to have been the first newspaper in the Territory to take up the fight against licensed gambling. The Record recalls that the New Mexican once did publish a few clippings against gambling—and then dropped the subject very suddenly, after the Albuquerque Advertiser and the Santa Fe Eagle had exposed its hand. About the same time the Artesia Advocate and the Daily Record were engaged in a campaign against gambling—and the result was that it has long ago been abolished in both Roswell and Artesia. Other papers in the Valley have continued to fight the evil, and Carlsbad eventually will drive it out, even if the legislature fails to pass an anti-gambling law. It is results that count. It is not the one who fires the first shot, but the one who keeps on fighting until the tiger is dead that wins the pelt. Since the New Mexican has been fighting licensed gambling so long, the only inference we can draw is that the paper has very little influence in its own town.

### VERDICT FOR THE ROSWELL MINISTER.

Dismissing the matter of ethics, which to discuss would be "obiter dicta," so far as the judgment of the "Parson" goes, the argument of Rev. Edwin Emerson Davis against Christian Science remains unanswered, and we hereby declare the case closed and direct the jury to bring in a verdict for the minister in thirty counts. The article printed in yesterday's paper was written under the direction of the Publication Committee of the First Church of Christ, Scientist, Boston, Mass. It is, presumably, the strongest answer that could be written by any lesser personage than Mrs. Eddy herself, and yet as evidence or argument seems to be "incompetent, irrelevant and immaterial." We are aware that many great scientists have held that matter is unknowable—but unlike Mrs. Eddy, they do not deny the existence of matter. Neither do they pretend to understand the ways of God which are past finding out. Since the Boston advocate refers to Spencer's "First Principles," Section 52: "Could it be shown, or could it with any rationality be even supposed, that matter, either in its aggregates or in its units, ever became non-existent, there would be need either to ascertain under what conditions it became non-existent, or else to confess that Science and Philosophy are impossible."

### Transfers of Real Estate.

The following deeds have been filed for record in the office of Probate Clerk and Recorder F. P. Gayle:
